GERRY MAR AGUSTIN

KRISTIAN IVAN PINEDA

ZOSIMO UY

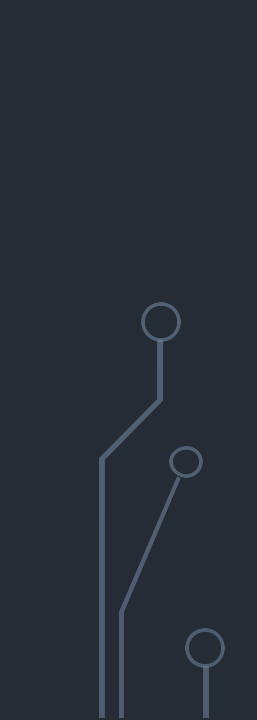

The background is a dark blue gradient. In the corners, there are white line art designs resembling circuit boards or neural networks, with lines connecting to small circles.

# CODE WORK

- Code Work – the leading outsourcing company for developers of technologies. Is a service provider for business owners that want to create a website, mobile app or software solution with the help of highly trained professionals working from any country around the world.

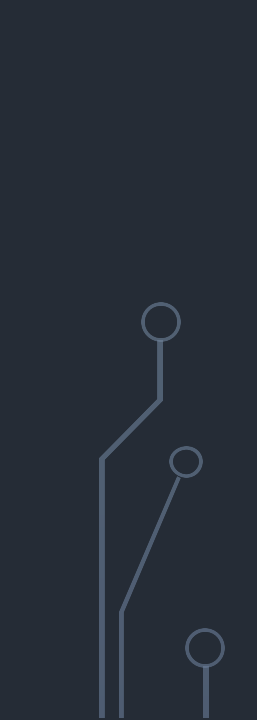

# CODE WORK END USER

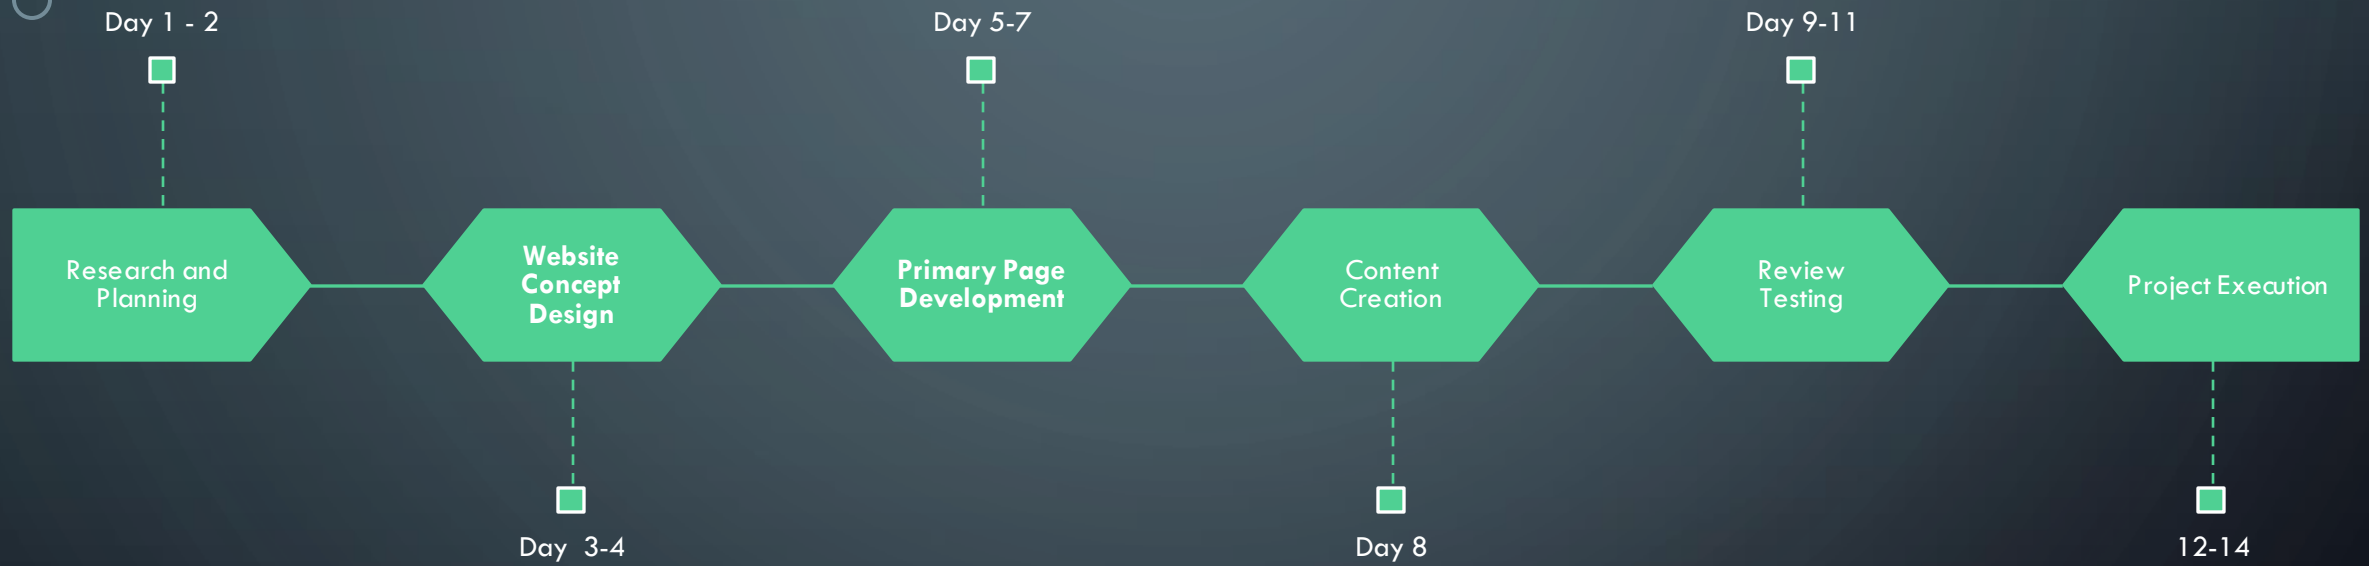

- For businesses owners that want to create a website, an outsourcing company for developers can be a great asset. Furthermore, unlike hiring in-house developers, businesses don't need to worry about developing their own team or outsourcing tasks. All they need to do is hire an experienced outsourced developer and their website will be up and running quickly.

# CODE WORK OBJECTIVE

- Code work fulfills an important aspect of modern business, by enabling clients to easily generate results based on their specific needs. Through the use of talented outsourced developers and an easy-to-use platform, clients can avoid the time and costs associated with recruiting in-house developers. As such, code work is a valuable tool for any company that's looking to maximize efficiency in their operations.
